

Stop the Strip Club

at South Robertson NOW!

NoRobertsonStripClub.com

An **ALL NUDE** strip club to be called the **SKIN CABARET** is preparing to open soon at 3388 South Robertson, the former site of the Culver City Meat Company and an area densely populated with local businesses and quiet residential neighborhoods. The club will admit people **as young as 18**.

Growing concern about this sexually-explicit business and its operators—and the negative impact it will have on the local community—have produced a groundswell of opposition. More details can be found at NoRobertsonStripClub.com, but here are three **key reasons why residents and businesses oppose it**:

Sexually-Explicit Business Close to Schools and Parks

A strip club has the potential to expose our children to lewd conduct, prostitution, drug sales, violence, loitering, and drunkenness. Moreover, many Hamilton High students will walk by the club on their way home from school every day.

Creates Traffic Hazard

The area around the Robertson on-ramp to the 10 Freeway is already congested and confusing. The strip club's additional traffic and distracting signage may pose a serious traffic and pedestrian hazard in the neighborhood.

Hurts Neighborhood Revitalization

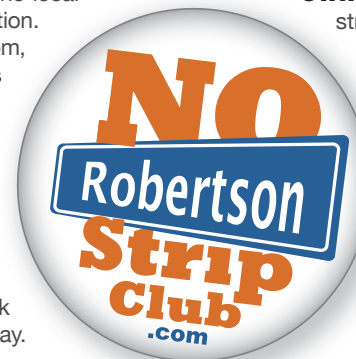

The strip club would be huge setback for our community, which is already struggling to attract new business, limit crime and maintain property values. (Read the LAPD report on the impact of strip clubs on NoRobertsonStripClub.com)

How YOU Can Help

On **January 28th**, the Los Angeles Police Department's Permit Review Panel will hold a special hearing at Hamilton High School to take public comment about the strip club. It is **absolutely critical that a large number of residents and business owners attend the meeting** to show that we are strong, committed, and unified in opposition.
